THE CHAMPIONS' SCHOOL

What is the *Vittorio Caneva RALLY SCHOOL*:

In the splendid scenary of Asiago plateau, in Vicenza province, the courses of Vittorio Caneva Rally School are perform, the didactic structure created by the ex rally driver Vittorio Caneva.

The lessons last one, two or three days, according to the course typology and are turned to all those who already have competitive experience or they intend to begin in the better ways the activity in the motor racing (rally, slopes, historical, gathers).

The practical lessons, with technological avant-garde cars, last several hours a day, they are perform on real special stages runs and the student has way to verifying, discuss and compare with the instructor his performances thanks also to the on-board video and telemetry help.

Vittorio Caneva has behind his shoulders a long experience of competitive practice teaching, having been (in 1989) the forerunner of the rally school.

His experience in the runs is a success experience, first as official driver of Citroen Italia, Ford Italia and the Lancia Totip in the WRC and, then, as keen instructor, has made that his courses became a reference point also at international level above all for young people which from all the world converges in Asiago to learn the rally driving.

Vittorio Caneva, in the last ten years, had also belonged to the Subaru, SEAT, Ford, Hyundai, Mitsubishi, Stobart team following as a consultant, of the former Italian drivers engaged in the World Rally Championship like Piero Liatti and Gigi Galli.

This has allowed him to be in close contact with the big of the World Rally Championship, learn the secrets of their driving and follow run after run the frenetic development of the most sophisticated rally cars.

In substance, Vittorio Caneva, disposes today of a constant updating of the driving techniques and of most avant-garde technologies. An enviable baggage of knowledge that

he then pour off with enthusiasm on the students of the school who takes his name.

How *VITTORIO CANEVA RALLY SCHOOL* has born:

In Italy, in 1989, there was no structure that provided a valid support to those who wanted to approach to the motor competitions on road.

The debutant was left alone, forced to learn everything on the field and dearly paying for mistakes and inexperience.

Realizing this gap, Vittorio Caneva decided to place at disposal its experience and that one of a few colleagues planning the *Vittorio Caneva Rally School*, that in time, became in Asiago a true and real reference point for the expert rallies pilots or for the beginners. To Vittorio Caneva side have succeeded, in the role of instructors, pilots of big national and international intelligence which has helped and transmitted their experience at the school.

Therefore for the students of the courses the rally driving has not had secrets any more. Projected in the role of innovator, Vittorio Caneva took to Asiago a new method to conceive the Rally school based on the driving monitoring with very sophisticated technologies inventing so the trainer's figure which in the rallies up to now had never met. Many drivers, from all the world have entrusted in these years the study and the Improvement of their drive to Vittorio Caneva making also various stages in the structure of Asiago, the numerous championships won in the last few years testify the school's engagement to always get the maximum turned out.

Here are some rally drivers who have made use of *Vittorio Caneva Rally School* to form or improve their leadership:
